

# 1960's

These timelines were created to show significant SLR-related events over the last five decades, listed in categories: station developments, mission launches, important meetings, and other activities (project and program developments, major natural disasters, etc.).

See additions or corrections? Use a sticky note to add it to the appropriate timeline and location.

More detailed historic contributions by our ILRS station colleagues are available for browsing.

Photos used in the timelines have been obtained from the ILRS website and courtesy of ILRS station contacts, NASA, AFRL, AVISO, Ball Aerospace, CNES, EOS, ESA, GFZ, S. Grahn, IPIE, ISRO, JAXA, KAIST, KARI, Lavochkin Association, NOAA, NRL, SHAO, Stanford University, Stellenbosch University, USNO.

Questions/comments: Carey Noll (Carey.Noll@nasa.gov).
